Garden City Development Services

Re: CUPFY2022-0015 5226 W Chinden Blvd

This is a conditional use permit request to use this property for the storage of equipment and supplies of a Remediation Services company.

The Boise Fire Department has reviewed this application and can approve of this conditional use with the conditional approval of the types and amounts of hazardous materials that will be stored on site. A list of the hazardous materials and their SDS sheets will be required for review by the Fire Marshal of the Boise Fire Department. If found in compliance with the 2018 International Fire Code, this use can be approved.

General Requirement:

Specific building construction requirements of the International Building Code, International Fire Code and NACFR Rules will apply. However, these provisions are best addressed by a licensed Architect at time of building permit application.

Regards,

Mike Bisagno
