Subject: Support for 34th Street Market

Hello!

We are writing in strong support of the 34th Street Market ahead of the conditional use permit hearing. We own property at 283 E. Thurman Mill, and our family loves to attend the market with our four-year-old son. The reason we were interested in living in Garden City is precisely because of its quirky, diverse, and mixed use nature. We do NOT want GC to be anything like Meridian or Eagle and support less parking and sprawling strip malls, not more.

Please encourage more density, more mixed use, and more public transportation and bike/walk options as you plan the future of Garden City.

Sincerely,

Caitlin and Jeff Masingill
