Subject: Design Review Request 05.29.2020 | DSRFY2020-6
Date: Friday, May 29, 2020 4:38:08 PM
Importance: High

Good afternoon all –
Happy Friday!

19038 | 5320 N. Sawyer Ave. | DSRFY2020-6

First of all, *Thank You* again Christian for all you have done for us on this N. Sawyer Ave. development and thank you for your hard work at Garden City's planning department.

-
I want to be transparent with my following request.

As we know, even with ample time on any kind of project, feedback, critiques, ideas can take time to come in from a client or a client representative. With that in mind, when I submitted for design review, I was working with the most accurate information I had at that time. Since then, however, additional and more specific information has been shared with me, the design team that moves the development of the warehouses in the direction more in sync with the owner's visions on their property – Michael and Shana Braught.

-
I do not want to take anyone by surprise, therefore, could I send you additional renders at this time that demonstrate the proposed revisions based off of the Braught's additional and very specific asks for their project for the committee to review?

The attached are a quick view of the revised renders. I understand this is not a typical request and on a very short notice. Some of these ideas take the feedback from the DR members at the Pre-App meetings to the next level and I truly believe that it would be more worthwhile to present and discuss. Again, I want as transparent and up front as possible.

-
Thank you,

Victor Ferral | [BRS Architects](#) | Project Manager
