DESIGN REVIEW DECISION - 3

DSRFY2022-0022; 47th Street Apartments; 233 & 311 E. 47th Street

21. On September 8, 2022, in accordance with GCC 8-6B-3, a pre-application conference was held with the Design Committee. The Committee provided the following comments and requests:
 - a. Katrina Klum presented the application.
 - b. Discussion with the Design Review Committee included:
 - i. Northern property line doesn't have trees due to the open Thurman Mill irrigation.
 - ii. Street elevation of the units closest to 47th street are required to address the street. End unit could be a unique structure or design.
 - iii. Identify if the development's back structures are lost. There isn't a street, or a courtyard for the units to focus on. What is their amenity?
 - iv. Terminal views need to end in landscaping and beautification as opposed to dwelling unit garages. Is there opportunity where drive isle can become common open area with multi-uses?
 - v. Rooflines, hips, gables, and facial lines all need more depth and character.
 - vi. Parking reduction needs to be justified. Transit line has been removed and no longer opportunity.
 - vii. Pedestrian connectivity will be implemented through the long block in association with the adjacent property (DSRFY2022-2023).
22. On January 3, 2023, a public hearing before the Design Review Committee was held and the application was moved to the date certain of February 6, 2023 due to noticing errors.
23. On February 6, 2023, a public hearing before the Design Review Committee was held. A summary of the discussion is as follows:
 - a. Katrina Klum presented the application.
 - b. Staff, Hanna Veal, presented the staff report.
 - c. Public testimony was heard from:
 - i. Tom Schappacher; trash enclosure location, noise, and privacy concerns. Parking deficiency will move people to park on the street which already lacks parking. Massing of the structure creates privacy concerns.
 - ii. David Bedford; single trash location for 60 units should not be adjacent to other residential properties.
 - iii. Jason Jones; move trash enclosure to center of development where existing guest parking spaces are proposed.
 - d. Katrina Klum provided rebuttal:
 - i. The trash enclosure is to be enclosed by CMU walls, privacy gates, and can set the schedule for trash pick-up.
 - ii. Multiple trash enclosures were discussed as well as individual bins. Parking spaces conflict with enclosure location options.

- iii. Perimeter fencing proposed along all property lines excluding the front and locations allowing for cross access with adjacent DSRFY2022-0023 property (306 E. 46th Street).
- iv. Privacy screening of the amenities and front porches.
- v. Open irrigation ditch amenity through the center of the property was considered, but on-site storm water mitigation conflicted with the option. Irrigation district required new line to be at northern property boundary.
 - 1. Irrigation district is requiring that it not be paved over.
- vi. Will be connecting to city water, not utilizing Fairview Acres canal for irrigation.
- e. Public testimony was closed.
- f. Discussion included:
 - i. Visual way finding elements need to be added to the development's amenity rooms (bike storage, office, mailroom).
 - 1. Articulation of the façade to help enhance the façade and create visually identifiable space.
 - 2. Changes to facade materials could help identify the use and function.
 - ii. Units adjacent to 47th Street need to address the street more. Dynamic relationship between development and street is required.
 - iii. Building C interaction with the overall development has improved but requires additional design features such as access.
 - iv. Plaza area towards rear appears secondary in function.
 - 1. Add and enhance "node" features to create stronger connection with 47th Street towards the rear of the property by traversing the central spine to get access to rear units and connection to DSRFY2022-0022 (306 E. 46th Street).
 - 2. Common drive should become more pedestrian oriented as it crosses the "amenity spine" at rear of property.
 - v. Trash enclosure should be made centralized if multiple are not provided.
 - vi. Missed opportunity to utilize the on-site irrigation.
 - vii. Lack of supporting documentation for the relocation of the canal. Need additional documentation showing other potential locations for the ditch.
 - 1. Loss of perimeter landscaping is caused by proposed location of the tiled irrigation ditch.
 - 2. New location of irrigation ditch is not the best solution.
 - viii. Fencing should not be placed along 47th Street.
- g. Committee Member Labrie moved to continue to a date certain of March 6, 2023.
- h. Committee Member Hurd seconded the motion.
- i. The motion carried unanimously.

24. On March 6, 2023, a public hearing before the Design Review Committee was held:
- This section will be completed after the hearing.

CONCLUSIONS OF LAW

The Design Review Committee reviewed the application with regard to Garden City Code, Title 8, Chapter 4, and based on the conditions required herein, concludes the application **meets/ does not meet** the standards of approval under **GCC 8-6B-3 Design Review Committee**.

DECISION

WHEREFORE, based upon the foregoing Findings of Fact and Conclusions of Law contained herein, the Design Review Committee hereby **APPROVES/DENIES** the application, subject to the following conditions:

POTENTIAL CONDITIONS FOR APPROVAL DECISION

Site Specific Requirements:

Scope:

1. The building permits must be in conformance with the approved plans. Staff may approve minor changes to the approvals so if they are compliant with Garden City Code including:
 - a. Substitutions of plant species, if there is no reduction in landscaping and the species are comparable in height and width. Substitutions of trees must be of the same or larger tree classification and be comparable or larger in tree canopy and height.
 - b. Less than 5% of rearrangement of elevations or building façade materials if there is no reduction in building modulation, fenestration, or glazing.
 - c. Less than 5% of rearrangement of site.

2. The existing Fairview Acres irrigation ditch is permitted to be tiled based on the Design Review Committee's determination per Garden City Code 8-4A-9:
 - a. The irrigation ditch, lateral, canal, or drain is enclosed or will soon be enclosed on both ends adjacent to the property, and the adjacent properties are or will be fully developed in a manner that future opening of the enclosed irrigation ditch, lateral, canal, or drain is infeasible.
3. The site is permitted to have a maximum parking deficiency of 9 vehicular parking spaces based on Garden City Code 8-4D-6 Standards for Alternatives to On-Site Parking if the site provides:
 - a. Ride-share parking space;
 - b. E-bike parking facilities;
 - c. Scooter parking facilities.
4. The northern property boundary line is permitted to not include the required perimeter screening trees due to conflict with GIRR utilities.
 - a. A mix of evergreen and deciduous screening vegetation shall be planted in all perimeter landscaping areas.

Prior to Building Permit Issuance:

1. A lot line consolidation shall be applied for review. The record of survey shall be recorded with the county prior to construction.
2. The landscaping shall be compliant with Garden City Code 8-4I Landscaping and Tree Protection Provisions:
 - a. A minimum of five percent (5%) of the gross site area shall be landscaped areas, excluding areas for setback or perimeter landscaping.
3. The pedestrian pathway system shall be designed to connect to adjacent private property, trails, plazas, and open space areas.
 - a. The pedestrian pathway shall stub in with the adjacent public access pathway associated with DSRFY2022-0023 located at 306 E. 46th Street.
 - i. The pedestrian pathway shall be installed so that the hardscape transitions between the two properties is even.
 - b. A public pedestrian and bicycle cross access easement shall be provided through the site to connect 47th Street with the adjacent public pedestrian access easement.
 - i. The location of the pathway shall be designed in a direct manner and not involve a significant amount of out of direction travel for likely users.
 - c. The pathway shall be a minimum of 5' wide.
 - d. The public pedestrian and bicycle cross access easement shall be a minimum of 5' wide.
 - e. Pedestrian amenities shall be provided along the pathway to support defensible space, crime prevention, pedestrian comfort and accessibility.

Prior to Occupancy:

1. Occupancy of the site shall not commence until after a Certificate of Occupancy has been obtained from Garden City Development Services Department.
2. A building permit shall be applied for and approved by Garden City Development Services Department.
3. The buildings interior to the development must be 10' apart from one another.
4. A copy of recorded legally binding documents that state the maintenance and ownership responsibilities for the management of the development, including, but not limited to, structures, parking, common areas, and other development features shall be provided to the City.
5. Any existing chain-link fence, chain-link with slats fence, barbed wire fence, or any other prohibited fencing materials according to GCC 8-4A-3 shall be removed and replaced with code compliant materials. All proposed fencing shall be compliant with GCC 8-4A-3 Fences and Walls.
6. There will be a minimum of 10 bicycle parking spaces provided.
7. The open space located at the rear of the property shall not be constructed upon or fenced in. It shall remain open and unbuildable to always remain open space shared with the adjacent property associated with DSRFY2022-0023.
 - a. An easement shall be provided to assure this condition.
8. Contrasting hardscape material shall be installed at the drive aisles to better identify the pedestrian crossings within the development.
9. Perimeter landscaping shall be installed along all property boundaries in accordance with Garden City Code 8-4I-5 Perimeter Landscaping Provisions unless otherwise provisioned in this document.
 - a. The northern and portions of the eastern property boundaries perimeter landscaping shall consist of screening vegetation to enhance the privacy between the subject property and those adjacent.
 - b. Landscape shall consist of both evergreen and deciduous plants.
10. Mitigation shall be required for all existing trees four-inch (4") caliper or greater that are removed or damaged from the site.
 - a. Mitigation shall be replacement of the total calipers lost on site up to an amount of one hundred percent (100%) replacement.
 - b. 179.75 caliper inches shall be mitigated for.

Site Specific Requirements for the Duration of the Use:

1. The following amenities shall be provided or replaced with an amenity from the same category of amenity as identified in Garden City Code:

- a. Quality of life amenities: enclosed bike storage public art visible or otherwise usable by the public and outdoor kitchen/ BBQ area;
 - b. Open space: plaza area with fire pit and benches;
 - c. Recreation amenities: children's play structures and sports courts.
2. A property management office must be on site, and tenants, and outside members of the public or police must be able to get a hold of emergency services 24- hours of the day.
3. A maintenance storage area must be provided.
4. A central mailbox location is provided in accordance with this approval.
5. A directory and map of the development is located at the entrance or convenient location for those entering the development.
6. All roof and wall mounted mechanical, electrical, communications, and service equipment should be screened from public view from the adjacent public streets and properties by the use of parapets, walls, fences, enclosures, or by other suitable means.
7. Any future fence or wall will be required to be in compliance with code at the time of development.

General Requirements:

1. This review and approval is specific to the design of the project. Final approval is subject to the approval of other reviewing agencies. Any more restrictive standards adopted and made applicable by any Transportation Authority, Fire Authority or other Federal, State or Local regulatory agencies shall prevail. This approval shall not annul any portion of Garden City Code or other applicable regulation unless specifically noted.
2. Any changes to the plans and specifications upon which this approval is based, other than those required by the above conditions, will require submittal of an application for modification and approval of that application prior to commencing any change.
3. All improvements and operations shall comply with applicable local, state and federal requirements and procedures whether specifically addressed in the analysis of this application or not. This shall include but not be limited to 8-4A General Provisions of Design and Development Regulations; 8-4I-3 and Landscape Maintenance Provisions 8-4I-9; and Standards for Transportation and Connectivity Provisions identified in 8-4E.
4. All utilities on the site, including telephone, cable television, and electrical systems shall be underground and in compliance with Garden City Code 8-4A-8.
5. Driveway openings in curbs shall comply with the requirements of the Transportation Authority. The driveway shall be straight or provide a 28-foot inside and 48-foot outside turning radius.

6. Plant materials which exhibit evidence of insect pests, disease, and/or damage shall be appropriately treated to correct the problem. Dead plant materials shall be replaced.
7. Where landscaping might impact motorist or pedestrian sight distance, shrubs shall be maintained below three feet (3') in height and trees shall be pruned so that the lowest branches will be at least seven feet (7') above the ground level.
8. A three-foot (3') clearance zone shall be maintained around the circumference of fire hydrants.
9. Retain and protect existing trees, vegetation, and native soils and integrate these features into the overall landscape plan as required by or exempted from Garden City Code 8-4I and as shown in the approved landscape plans.
10. Required landscape areas shall be at least seventy percent (70%) covered with vegetation at maturity, with mulch used under and around the plants. Use of mulch, organic or rock as the only ground cover in required planting areas is prohibited.
11. If trees are staked, the stakes shall be removed within twelve (12) months to prevent damage to the tree.
12. All planting areas that border driveways, parking lots, and other vehicle use areas shall be protected by curbing, wheel stops, or other approved protective devices.
13. Trees shall be planted at least three feet (3') from curbs, sidewalks, driveways and other hard surfaces to buffer from stress caused by vehicle overhang and compacted soils or planted with sufficient space to provide for the full maturity of the particular tree species.
14. All other plant material, except sod or ground cover, shall be set back a minimum of one foot (1') from any curb edge to protect from vehicle overhang and mechanical damage.
15. The landscape installation shall stabilize all soil and slopes.
16. All required landscaping shall be provided with an automatically controlled irrigation system in conformance with the best management practices for automatic irrigation systems.
17. Demonstrate compliance with or an exemption from Garden City Code 8-4G prior to certificate of occupancies.
18. This approval is for this application only. Additional permits, licenses and approvals may be necessary. All other applicable permits must be obtained prior to a Certificate of Occupancy.
19. Property Maintenance Standards shall be maintained as required by Garden City Code.
20. The property owner is responsible for the maintenance of all landscaping and screening devices required.
21. All outdoor living spaces must comply with Garden City Cod 8-3C General Provisions- Living Space Requirements.
22. All outdoor service and equipment areas shall comply with Garden City Cod 8-4A-5 Outdoor Service and Equipment Areas.
23. All stormwater systems must comply with Garden City Code 8-4A-7.
24. Materials submitted after the decision shall not be considered part of the record for this decision. If additional materials or information is submitted after the decision the application may be remanded to the decision-making body during which time

the decision shall be stayed provided that there is no immediate threat to life or safety.

25. Any changes in the design, construction, operation or use shall be brought to the immediate attention of the Planning Official for determination if the changes are in substantial conformance with the City's action. Any modification to approved plans shall require submittal and approval of these modifications prior to construction. Final approval is based on substantial conformance with the plans reviewed and approved.
26. Any substantial changes to the design shall be reviewed by the Design Review Committee for compliance with Garden City Code 8-4. Any other changes that are not in substantial conformance with the approval shall be remanded to the decision-making body.
27. Occupying the site prior to Certificate of Occupancy is a criminal offense.
28. This approval shall expire 365 days from its approval, unless otherwise extended as allowed by Garden City Code .
29. There is a 15 day right to appeal to City Council. The applicant or any interested parties may appeal the decision or a part of the decision. An appeal shall be made on the form provided by the City and filed with the City Clerk within 15 days after the action of the decision.
30. If any term or provision of this decision, to any extent, is held invalid or unenforceable, the remaining terms and provisions hereof shall not be affected thereby, but each such remaining term and provision shall be valid and enforced to the fullest extent permitted by law.

STANDARD DENIAL DECISION

1. In order for approval by Garden City, the proposal must be in compliance with all standards of 8-6B-3. This project is not in compliance with 8-6B-3 standard(s) 1, 4, and 6 because it is not in compliance with the Garden City code sections 8-2C-15, 8-4A-9, 8-4B-4, 8-4D-5, and 8-4I-5. Compliance can be met by providing additional parking; providing a scale and form more align with the existing and planned neighborhood, integrating the Fairview Acres irrigation canal as an amenity, providing architecture and site improvements that are compatible with and enhance the neighborhood.
2. There is a 15 day right to appeal to City Council. An appeal shall be made on the form provided by the City and filed with the City Clerk within ten (10) days after the action of the decision.

3. Final decisions are subject to judicial review pursuant to The Local Land Use Planning Act, Chapter 65 Title 67 Idaho Code.
4. Any applicant or affected person seeking judicial review of compliance with the provisions of this section must first seek reconsideration of the final decision within fourteen (14) days. Such written request must identify specific deficiencies in the decision for which reconsideration is sought. Upon reconsideration, the decision may be affirmed, reversed or modified after compliance with applicable procedural standards. A written decision shall be provided to the applicant or affected person within sixty (60) days of receipt of the request for reconsideration or the request is deemed denied. A decision shall not be deemed final for purposes of judicial review unless the process required in this subsection has been followed. The twenty-eight (28) day time frame for seeking judicial review is tolled until the date of the written decision regarding reconsideration or the expiration of the sixty (60) day reconsideration period, whichever occurs first.
5. Pursuant to The Local Land Use Planning Act, Chapter 65 Title 67 Idaho Code, a takings analysis may be requested on final decisions.
6. If any term or provision of this decision, to any extent, is held invalid or unenforceable, the remaining terms and provisions hereof shall not be affected thereby, but each such remaining term and provision shall be valid and enforced to the fullest extent permitted by law.
