GARDEN CITY ARTISANS™ PATHWAY POLICIES

Garden City has a thriving business community but has long been a “drive through” city where non-residents and visitors often don’t slow down to appreciate the many changes now taking place in the city. The Garden City Artisans™ Pathway project presents visitors with a different view of Garden City.

The goal of the Garden City Artisans™ Pathway is two-fold:

- To showcase the city’s growing artisan community, as well as existing businesses within the city that may not have been noticed before; and
- To provide a safe and comfortable public route for pedestrians and bicyclists to visit the artisan community in Garden City.

A member of the Garden City Artisans™ community is defined as follows:

A person or company that makes a distinctive food, craft beer, wine, cider or art product on a small-scale basis, requiring specialized or artistic skills.

The following are policies regulating inclusion in the Garden City Artisans™ Pathway project.
