|--------------------------------|--|
| Development Application | CUPFY2024-0009 |
| Project Name | Big Bun- second drive thru lane |
| Project Location | 4999 N Glenwood St, Garden City |
| Project Description | Conditional use for second drive thru lane |
| Applicant | Studio H Architects |

The Idaho Transportation Department (ITD) reviewed the referenced application(s) and has the following comments:

1. This project is located on a heavily congested intersection and considerations must be made to mitigate additional traffic concerns.
2. ITD recommends restricting access onto the southernmost approach. The applicant shall install a curb to direct traffic north. This restricted access would only be limited to traffic directly exiting the drive-thru.

3. ITD reserves the right to make further comments upon review of the submitted documents.

If you have any questions, you may contact me at 208-334-8377.

Sincerely,

Kendra Conder
