TO: Garden City Development Services

FROM: Kathy D. Foster

RE: Development of 306 E 46th St

I sincerely object to the development of the above property for the following reasons:

- 1.The Garden City police are over whelmed now with policing the existing area and if this development is approved, there will be even more problems because there won't be enough policemen to patrol. In the past I have contacted Garden City Police requesting speed bumps to slow traffic with no response whatsoever. The problem with speeding will definitely increase if this development is approved.***
- 2. The traffic on Adams Street has increased considerably the past couple of years, and, therefore, if this project is approved, the traffic will be outrageous.***
- 3. My neighborhood bordering Adams St. has definitely been affected with the increase of development and this proposed development would be horrendous.***

I urge the City Council to deny this application.

Sincerely,

Kathy D. Foster
