GCC 8-6B-7: PLANNED UNIT DEVELOPMENT: REQUIRED FINDINGS			
Conclusion			Standard
Compliant	Not Compliant	Not Applicable to this Application	
X		X	<p>Finding: The applicant has demonstrated that the proposed development can be initiated within two (2) years of the date of approval;</p> <p>Explanation:</p> <p>In Approval: Approval of this application is conditioned that the development shall be initiated within two years of the date of approval.</p> <p>In Denial: The application has not provided documentation that the development will be initiated within two years of the date of approval.</p>
X		X	<p>Finding: Each individual unit of the development, as well as the total development, can exist as an independent unit capable of creating an environment of sustained desirability and stability or that adequate assurance will be provided that such objective will be attained; the uses</p>

			<p>proposed will not be detrimental to present and potential surrounding uses, but will have a beneficial effect which would not be achieved under standard district regulations;</p> <p>Explanation:</p> <p>In Approval: The proposed development and each structure can successfully exist independently of the surrounding area and will not be detrimental to the surrounding neighborhood.</p> <p>In Denial: If the entire project fails to be completed the components of the development cannot sustainably continue.</p>
X		X	<p>Finding: The streets and thoroughfares proposed are suitable and adequate to carry anticipated traffic and increased densities will not generate traffic in such amounts as to overload the street network outside the PUD;</p> <p>Explanation:</p> <p>In Approval: The proposed development has a private drive that is capable of handling anticipated traffic which will provide ingress/egress onto Clay Street. The PUD is not large enough to trigger a traffic impact analysis.</p> <p>In Denial: The PUD development does not propose adequate parking and thus will cause congestion on the street. The functionality of the residential units off Clay Street will cause an increase of traffic density to which will cause an overload to the street network.</p>
X		X	<p>Finding: Any proposed commercial development can be justified at the locations proposed.</p> <p>Explanation:</p>

			<p>In Approval: The proposed residential units can be justified at the location as the zoning district is C-2 and the subdivision fits within the comprehensive plan's designation of Live-Work-Create.</p> <p>In Denial: There is inadequate access and parking available to support the requested work component of this application.</p>
X		X	<p>Finding: Any exception from standard district requirements is warranted by the design and other amenities incorporated in the final development plan, in accordance with the PUD and the adopted policy of the council</p> <p>Explanation:</p> <p>In Approval: The requested waivers make a more useful pattern of public space and residential common areas.</p> <p>In Denial: The exception from standard district requirements is not warranted as they result in a proposal that is over taxing of the location and detracts from the required open spaces and recreational areas of the neighborhood.</p>
X		X	<p>Finding: The area surrounding said development can be planned and zoned in coordination and substantial compatibility with the proposed development;</p> <p>Explanation:</p> <p>In Approval: The proposal is compatible with the surrounding uses and the neighborhood vision.</p> <p>In Denial: The proposed development is not compatible with the surrounding uses nor the neighborhood vision.</p>

X		X	<p>Finding: The PUD is in general conformance with the comprehensive plan;</p> <p>Explanation:</p> <p>In Approval: With the unique design of the dwellings and increase in density, this development may be considered compatible with the existing residential uses in the neighborhood.</p> <p>In Denial: The application cannot be found in conformance with the comprehensive plan as it does not adequately Emphasize the “Garden” in Garden City, it does not create a diversity in housing types, nor does encourage opportunities to provide mixed income housing.</p>
X			<p>Finding: The existing and proposed utility services are adequate for the population densities and nonresidential uses proposed;</p> <p>Explanation:</p> <p>In Approval: An ability to serve has been submitted with this application.</p>
GCC 8-6B-2 CONDITIONAL USE: REQUIRED FINDINGS			
Conclusion			
Compliant	Not Applicable to this Application	Not Compliant	Standard
X		X	<p>Finding: The use is appropriate to the location, the lot, and the neighborhood, and is compatible with the uses permitted in the applicable zoning district;</p> <p>Explanation:</p> <p>In Approval: The application is cohesive with the Comprehensive Plan’s designation of Live-Work-Create by increasing the density of the property and</p>

			<p>providing a “home office” area for each unit that which faces the public street. The development is also compatible with the surrounding uses and is permitted within the C-2 zoning district.</p> <p>In Denial: The application is not appropriate to the location or the neighborhood as the proposal is more intensive than what is envisioned by the Live-Work-Create district. Furthermore, the application cuts adjacent properties off by encroaching into the minimum setback area and ignores its special location that which corners 33rd Street and Clay. Furthermore, the application requires more parking to prevent congesting the neighborhood.</p>
X		X	<p>Finding: The use will be supported by adequate public facilities or services to the surrounding area, or conditions can be established to mitigate adverse impacts;</p> <p>Explanation:</p> <p>In Approval: There are public services available that can accommodate the proposed development.</p> <p>In Denial: The subdivision does not meet this finding as the proposal is under parked and has the potential to overcrowd the neighborhood streets.</p>
X		X	<p>Finding: The use will not unreasonably diminish either the health, safety or welfare of the community;</p> <p>Explanation:</p> <p>In Approval: There is no evidence that the development will be detrimental to the public health, safety, or general welfare of the community.</p> <p>In Denial: The lack of adherence to City Codes and the City’s Comprehensive Plan is detrimental to the welfare of the City.</p>

X		X	<p>Finding: The use is no in conflict with the comprehensive plan or other adopted plans, policies or ordinances of the city.</p> <p>Explanation:</p> <p>In Approval: The application is cohesive with the Comprehensive Plan’s designation of the Neighborhood Destination and Live-Work-Create Designations. And is supports the Comprehensive Plan’s Goal 1, Nurture the City; Goal 2, Improve the City Image; Goal 4, Emphasize the “Garden” in Garden City; Goal 7, Connect the City; and Goal 12, Evolve as a Destination.</p> <p>Furthermore, the use has been found to be compliant with the sections of code applicable to the application.</p> <p>In Denial:</p> <p>The application may not be supported by Goal 3 Create a Heart for the City, Goal 4 Emphasis the “Garden” in Garden City, and Gal 6 Diversity in Housing.</p> <p>Furthermore. the project is not complaint with Garden City Code 8-3C, 8-4D; 8-4I; 8-4L.</p>

18. The record was reviewed by the Planning and Zoning Commission to render the decision.

CONCLUSIONS OF LAW

23. All stormwater systems must comply with Garden City Code 8-4A-7.
24. Cross-Connections: All cross-connections between the domestic water lines and the irrigation water lines shall be in accord with the City's adopted standards, specifications and ordinances.
25. Utility easements that are unobstructed by permanent structures shall be provided along front lot lines, rear lot lines, and side lot lines when deemed necessary by the City Engineer. Total easement width shall not be less than ten feet (10'), with twelve feet (12') recommended, front and rear, with at least twenty feet (20') required for water and sewer easements for main lines.
26. Unobstructed easements, including but not limited to, drainage, water, and sewer easements shall be provided as required by the City.
27. Materials submitted after the decision shall not be considered part of the record for this decision. If additional materials or information is submitted after the decision the application may be remanded to the decision making body during which time the decision shall be stayed provided that there is no immediate threat to life or safety.
28. Any changes in the design, construction, operation or use shall be brought to the immediate attention of the Planning Official for determination if the changes are in substantial conformance with the City's action. Any modification to approved plans shall require submittal and approval of these modifications prior to construction. Any changes to the plans and specifications upon which this approval is based, other than those required by the conditions noted in this decision, will require submittal of an application for modification and approval of that application prior to commencing any change. Final approval is based on substantial conformance with the plans reviewed and approved.
29. Any substantial changes to the design shall be reviewed by the Design Review Committee for compliance with Garden City Code 8-4. Any other changes that are not in substantial conformance with the approval shall be remanded to the decision-making body.
30. The applicant shall submit payment to the City for all outstanding fees incurred by the City in obtaining a review of this project prior to the City issuing any permits.
31. This approval shall expire within two years of approval, unless otherwise extended as allowed by Garden City Code.
32. This application shall be considered intent to vacate any previous use on site; all previous uses at this location shall be considered abandoned.
33. Final decisions are subject to judicial review pursuant to The Local Land Use Planning Act, Chapter 65 Title 67 Idaho Code.
34. Pursuant to Idaho Code, a request for reconsideration must be submitted within 14 days of the final decision and prior to judicial review. The written request must identify specific deficiencies in the decision for which reconsideration is sought.
35. A takings analysis pursuant to Idaho Code may be requested on final decisions.

36. If any term or provision of this decision, to any extent, is held invalid or unenforceable, the remaining terms and provisions hereof shall not be affected thereby, but each such remaining term and provision shall be valid and enforced to the fullest extent permitted by law.
