If Conditional Use AR (initials): A Conditional Use in a zoning designation does not mean that the use is a permitted use nor does it mean that it is a prohibited use. If criteria are set forth specific to a use that requires a conditional use, this will be the minimum criteria if approved; additional criteria may be required; or even if the minimum criteria can be met it does not mean that the use will be permitted. A conditional use may be found to be appropriate or inappropriate by a quasi judicial body based on a site specific analysis. For approval adequate evidence shall be provided to demonstrate that the use is appropriate to the specific location, including but not limited to zoning, comprehensive plan designation, and neighborhood where proposed.
