Re: SUBFY2024-0001: Shindig Subdivision located at 8875 W. State St.

Dear Sir or Madam:

This letter is a reminder that Drainage District #2 has a drainage ditch and easement that runs through or abuts this property. The easement is 100 feet, 50 feet each side of the centerline, for open drains and 50 feet, 25 feet each side of the centerline for piped or closed drains. The developer must contact the District's attorney's, Sawtooth Law Offices, PLLC, for approval before any encroachment, change of easement, or drainage discharge into the District's facilities occurs. The District must review drainage plans and construction plans prior to any approval.

The District generally requires a License Agreement prior to any approval for the following reasons:

1. Relocation of a District facility which would also require a new easement or fee title and relinquishment of the old easement once the relocation has been completed.
2. Piping of District facility.
3. Encroachment on a District facility with gas, water and sewer lines, utility lines, roadways, bridges or any other structures.
4. Drainage discharges into District facilities.

Also, please be advised that the District does not approve of trees within the District's easement. Therefore, any existing trees within the District's easement will need to be removed. On occasion, the District may make exceptions on a case by case basis, which requires the developers/owners to obtain written permission from the District for existing trees to remain.

Please contact me if you have any questions.

Yours very truly,
